**Mumps outbreak arouses students fear**

Students found a little under the tables when they went to the Physical Plant and room assignments or allergies but a virus spreading throughout the residence halls like an epidemic. In the past, students have complained about the cleanliness of the residence halls. Students believe that a virus spreading through the residence halls is likely to make them sick. Students are afraid that if they are not careful, they might get sick from the virus. Students are also concerned about the possibility of the virus spreading to other parts of the campus. Students believe that if the virus spreads to other parts of the campus, it will make it more difficult for them to go to class and attend events. Students are also concerned about the possibility of the virus spreading to other parts of the campus. **Truman's Physical Plant tables vanish**

Trudy Bateman
For The Daily Tribune

While the current state of the Physical Plant may not have been ideal, students who have used the tables often have been able to find them. The tables were located in various locations throughout the campus, and students have been able to use them for a variety of purposes. However, with the tables now gone, students are left wondering where they can go to find similar resources.
