A fleet of Star Destroyers take on a rebel Mon Cal Cruiser in orbit above a planet in a battle from ‘Empire at War’

When you think of Star Wars, certain images immediately come to mind: the iconic lightsaber, the noodle-fingered droids, the Jedi Force and more.

But what if you could command the empire in the Star Wars universe in a new strategy game called “Empire at War” from the developers behind the acclaimed “Civilization” series?

The game is set in the year 2015 and follows the epic battle between the Galactic Empire and the Rebel Alliance. As you command the Empire, you have access to dozens of the ships and strategies from the Star Wars movie series.

In the game, featuring the entire galactic map of the known universe, each set of unique spaces and land masses, there’s a lot to explore and conquer.

With the ability to command multiple units at a time, you can control entire fleets of ships from your command center, making it easier to coordinate your forces and take on the Rebel Alliance.

The game also includes a rich storyline that delves into the history of the Empire and the rise of the Rebel Alliance, allowing you to experience the epic battle from a unique perspective.

As you progress through the game, you’ll encounter familiar characters from the Star Wars universe, such as Darth Vader and Luke Skywalker, as well as new characters that bring the Empire to life.

Whether you’re a Star Wars fan or a strategy game enthusiast, “Empire at War” offers a unique and immersive experience that will transport you to the epic universe of the Star Wars movies.

So put on your lightsaber, prepare your TIE fighters, and get ready for battle. The Empire is waiting for you to command.
