Basketball book wins big

Book Review
“A March to Madness: A View from the Atlantic Coast Conference”
Author: John Feinstein
Pages: 512

This is a March Madness book that everyone — from the most casual of fans to the most ardent of backers — will ring true to this season’s tournament.

The book begins at the end of each team’s season, taking the reader behind the scenes of each team’s experiences, from the end of the season through the entire ACC bracket and the tournament.

The book is a collection of stories from the ACC, ranging from the most well-known teams to the most obscure.

The chapters are packed with emotion, frustration and triumph, as well as the statistics and team details that make the NCAA Tournament so special.

The book ends with the final game of the tournament, with the outcome known but the emotions still raw.

This is a must-read for anyone who loves college basketball, whether a seasoned fan or a newcomer to the sport.

The book is available at most bookstores and online retailers.
