Students’ wages are increased

**Roger Weinman**

Truman is at a point in where student employees are getting more from their time.

This year’s $1.8 million student-employee budget saw a 3 percent increase. This year’s $2.23 millionstudent-employee budget in the 2005-2006 year dropped by 20 percent from the $2.8 million in the 2004-2005 year.

The student-employee budget consists of the money received by Truman for work provided at the university. The budget is used to fund employment wages from the federal war- en relief program, which is the main source of the student-employee budget.

The increase was a result of the student-body and the university’s effort to increase the student-employee budget.

The total number of students employed at Truman increased by 5 percent, from 2,187 in the 2004-2005 year to 2,310 in the 2005-2006 year.

This year’s student-employee budget was a result of the university’s effort to increase the student-body and the university’s effort to increase the student-employee budget.

Sophomore Mélissa Brum laid on the bed, trying to figure out what to do next. She could stay on at 30 minutes, when Class Clean Access automatic- ally logged her off. Brum’s computer was one of the many in the residence halls that experienced major problems adjusting to Truman’s new access system, which is being rolled out this year.

So Brum and her roommate, Thank Watkins, decided to clean their machines and log back on. Brum and Watkins said the Cisco update was automatic, and Clean Access required students to download the program to clean their machines.

For now, however, the problem is still unresolved. Students in the residence halls that experienced problems adjusting to Truman’s Cisco update have been able to log in once again to check their e-mail.

The Board of Governors approved a student wage increase of 3 percent last year. The increase will affect all student employees at the university level since 1997. Although funding for student employment was used, which was a major consideration in reducing the budget...

The decrease in student employment wage from the federal war-en relief program was used, which was a major consideration in reducing the budget...
