Innovative housing development to hit Kirksville

PKS Development, a subsidiary of MLP Investments, is planning to begin construction on The Cove, a new luxury housing complex that will be located on Hamilton Street. Upon completion, it will have 60 units, each with four bedrooms, a two-bedroom, one-bathroom, study lounge, and cabinets. There also will be fully furnished, have large kitchen with all the appliances and furniture. These complexes are around $1,200 a month, which includes the amenities, plus all utilities except electricity.

"This type of development has been a hit around the country, especially among larger schools." Eric Kaemmerer President of PKS Development

"I think there is always one guy who never wants to pay for anything, and this should eliminate that problem. This way you only have to pay for what you use, and everyone can worry about their checks," Athon said.

"I don't know if they were stolen from a human, although this is not the first time a similar incident has occurred at a veterinarian's office in town. He also said some of the drugs in the safe were narcotics, which he said are used to anesthetize animals during surgery and to euthanize them. "I don't know if they were stolen from a human," he said. "I don't know if they were stolen from a human."

John's life is back on course thanks to a revolutionary hip replacement.

The first in Northern Missouri.

"I never dreamed it would be as good as it has been." – John Schlepphorst

John let his hip pain rule his life, day after painful day. Then he learned of an innovative hip replacement procedure found only at Northeast Regional Medical Center – a procedure that creates less discomfort and a smaller incision, resulting in a faster recovery. Since his surgery, he's been doing the things he loves and doing them pain-free. Don't let hip pain keep you out of your own life. Get connected with the only hospital in your area to offer this groundbreaking procedure. For a physician referral, call (660) 785-1194 today.
