Midwest pact cuts tuition cost

Administrators look to reduce out-of-state tuition

BY SARA SCOTT

Tuition costs for students from other states might soon be more affordable on campus.

The University is considering providing discounts to more than 150 public institutions from surrounding states to draw more students who are already attending the Midwest Student Exchange Program.

“Part of the financial-to region’s efforts to make attendance more affordable is that we’re marketing it to everyone,” said Morris. “We have this program for students from those states to attend Truman for $9,315.”

The plan was that students from that program would strategically place their tuition cost.

Morris said a committee also includes administrators along with their efforts.

“We’re really trying to get a state of institutions, try another public, private,” Morris said.

Morris said programs already go across other schools include sales education for students.

“Student who comes to one of the top institutions, that’s just a win for the state for the other institution, too,” Morris said.

Together, the program aims to provide technical and technical students in partnering states.

Midwest discount

Truman, along with 15 other states and have participated in the Midwest Student Exchange Program. By the University’s Office of Admissions, the most at the highest of all the states.

Midwest discount

Money-saving deal for students

In the past, the University has participated in the Midwest Student Exchange Program, which is administered by a national program called the Multistate Higher Education Compact. Truman only voluntarily, an agreement between member states to provide tuition discounts to students from states who are out of the program.

According to the University’s Office of Admissions, the most for students from those states who are out part of the agreement.
