Same goes for a sink of dirty dishes, Having no coffee mug more or your profes- sor needs to be more interesting. Getting a would work similarly and picking up on. I should be looking for course, not calling — that you wish want him to call — and he is, of course, not calling. That also means that half the time the any time women. Any time spe- • 1 cup packed light brown sugar • 1/2 teaspoon salt • 2 teaspoons baking soda • 1 1/3 cups (8 oz. pkg.) HEATH BITS vanilla and salt in Stir together to butter mixture, 1. Heat oven to 350°F. Lightly grease cookie • 1 cup unsalted butter, room, and it's grown. Just every- vice, and he realized that the University ments were to pick up surplus and when he tools. The Recycling Center employs about 30 students. The number of staff is low, and Mr. Worcester is the only person who has the expertise to operate the center. Mr. Worcester is the person responsible for all recycling and waste management activities at the Center. He is also responsible for managing the staff and ensuring that the Center operates efficiently and effectively. Mr. Worcester is well respected by his colleagues and students alike for his hard work and dedication to the Center.

The Recycling Center is located in Kirkville, Missouri, on the campus of the University of Missouri-Columbia. The Center is responsible for the collection and recycling of waste generated on campus, including paper, plastic, glass, and metal. The Center also provides education and outreach programs to help students and faculty reduce waste and increase recycling rates.

The Center is open Monday through Friday from 8:00 a.m. to 4:00 p.m. and Saturday from 9:00 a.m. to 5:00 p.m. The Center is closed on Sundays.

The Center is funded by the University of Missouri-Columbia and is supported by state and federal grants.

The Center has a number of ongoing projects, including a recycling education program for students and faculty, a composting program, and a recycling incentive program for student organizations. The Center also provides recycling education and outreach services to other colleges and universities.

The Center is open to the public and welcomes visitors who are interested in learning more about recycling and waste management.
