Bill increases public meeting notification period

By Stephanie Hall

In an audit of 13 local government agencies, 62 percent complied with the Sunshine Law within a three-day period. The test was based on similar releases by the State Auditor that showed the percentage of governmental bodies that release documents in an easily accessible way.

In a survey of local government agencies that complied with the Sunshine Law within a three-day period, 34 percent replied on the three-day period, 34 percent replied after the three-day period, and 62 percent replied within the three-day period. The survey was conducted by the State Auditor to determine the compliance of local government agencies with the Sunshine Law.

The survey was based on the Sunshine Law, which requires governmental bodies to notify the public of public meetings within three days and to make the meeting minutes available for public access.
