

**Skilled at treating heart attacks. Even better at preventing them.**

With advanced technology and new cardiologists joining our skilled team of physicians, Northeast Regional Medical Center has never been better at preventing a heart attack. While working with diagnostic tools like the CardioMD Imaging System and a full cardiac cath lab, our cardiologists can diagnose and treat a heart attack with skill and precision. Call your physician to schedule your annual physical or use our convenient physician referral line, 660-785-1319. And please, take care of your heart.
