Tru Rants

What makes you mad? Escaped? Annoyed? Happy? Do you think that we should rant with it rather than rant without it? Send us an e-mail and get your thoughts published in next week’s paper. It's just like Facebook, but better.

“Muffled scream” — I was shocked to find during MySpace’s search function that the page is riddled with spam-posted messages, not to mention all the other spamortic advertising that is present. This is the most common flaw among all university students. This is particularly true for students who already have a difficult time dealing with the course simply because of their workload. Therefore, the posting policy should not be overly restricted, according to my opinion. The current posting policy is over-restrictive, and I believe that it should be avoided as an at least a hard and fast rule.

Molly Skyles

Truman students are from various places and have different ideas. No matter what, a Truman student is a Truman student. When I think about that, I feel that the University is not as bad as people think. I feel it is quite logical for Truman students to have a vast amount of different ideas on the campus. When I think about that, I feel that the University is not as bad as people think. I feel it is quite logical for Truman students to have a vast amount of different ideas on the campus.

The random group performing for COM 170, the public speech course, in the Student Union Building on Thursday, April 9, is perfect for those students who want to learn new skills for giving speeches. This random group, who are just like any other student, is having enough fun to make the audience feel comfortable and participate in their speech. It is common for students to be comfortable in front of different people, but it should definitely not be an expectation for those who are already skilled at speech giving. To be comfortable in front of people, you must have a good amount of practice. This is especially true for those who are already skilled at speech giving. To be comfortable in front of people, you must have a good amount of practice. This is especially true for those who are already skilled at speech giving. Kirksville’s culture has evolved and in some ways become more similar to the medium of the communities we are familiar with. Kirksville’s culture has served as a source of entertainment for many years, and it has made the city a great place to live. Kirksville’s culture is very similar to the benefits of COM 170 achieves for students in other majors. However, what is not evident that the University doesn’t have a monopoly on entertainment and attracting, or at least making a terrible mistake. Culture in Kirksville may be able to be sustained by the University. But my mind is starting to change. Kirksville’s culture is very similar to the benefits of COM 170 achieves for students in other majors. Yoga Traditions and a sociology seminar program. Although it’s understandable that a college of the arts should be more generalized so that non-majors can receive the skills they need to be more motivated to excel. These courses are not only for students who major in the arts, but students who are not specifically majoring in the arts can benefit from the courses as well. The courses are not only for students who major in the arts, but students who are not specifically majoring in the arts can benefit from the courses as well.

The main point of our efforts seemed to be giving students a chance to be comfortable in front of others. This is an important concept for students who want to give speeches. Unfortunately, although some students have the opportunity to give speeches, they do not always get to give a few tips on giving speeches. I believe that this is a great opportunity for students to give speeches in front of others. The courses are not only for students who major in the arts, but students who are not specifically majoring in the arts can benefit from the courses as well.
