DZINGAI | Zimbabwean still holds 100- and 200-meter outdoor records at Truman

Continued from Page 15

Dzingai returned to Missouri and updated me about his current status. "I am happy to have returned to Missouri," said Dzingai. "I was hoping for Zimbabwe, but also for Truman. Truman's race not only was a good showing for Zimbabweans, but also for me." Dzingai continued to compile fast indoor and outdoor records at Truman through 2004.

After a track meet in Columbia, Missouri, Dzingai said, "Brian Anderson came back from Cold Harbord, Maryland. I don't think he ever ran indoors in his life, but he ran at White Harbord after the meet. He got a big boost and his legs would carry him through the race. I had a good race and my legs would carry me through the race." Dzingai then ran in the 60- and 200-meter relay indoor track races. Dzingai also set the school record in the 60- and 100-meter relay outdoor track race. He completed the race in 2003 as a Bulldog and ranked among the best in the nation for both races after placing eighth at the 2003 Div. I track nationals meet in the 200-meter race. At 5-11, Dzingai doesn't have the typical running back look, and his speed and agility make up for it. Dzingai's endurance and work ethic make him a valuable asset to the Bulldog track and field team.

At the conference meet, he really shined and put his team in the right direction. Dzingai is looking to build on his success in the fall so he starts to feel part of the team. He has a smile on his face and people respond to that very easily. I think that he is going to become a star very quickly."

Dzingai is a dependable leader both on and off the track.

TICHI | Quarterback enters his third season in a Bulldog uniform

Continued from Page 15

Decision: Although many plans are designed to help the Ticchi enter the starting lineup, the reality is that they have not been executed yet. The Ticchi have left the team in need of a quarterback. Ticchi was one of the top holes left in the lineup when he left for the military. He was listed at 6-foot-3 and 240 pounds.

The Ticchi have the most to gain in 2023. "We are excited about the opportunity to see what Ticchi can do in college," said coach Milt Smith.
