Mexican transportation provides a daily adventure

Although I love Mexico, I think my life has been less of a wild ride than you might think. When you are typing away on your computer, you usually have some comfort associated with the space you are sitting in. Whether you are sitting in a kitchen or a library, you have the ability to control your environment to some extent and to feel safe. This feeling of comfort is important to me because I appreciate having a place where I can go to feel safe and secure. In Mexico, however, this comfort is not always available.

In Mexico, the transportation system can be quite challenging. The buses in Mexico are often overcrowded and slow, which can make it difficult to get around. Sometimes, the drivers are not as considerate of other drivers, causing traffic jams and accidents. It can be a bit overwhelming at times, but it is important to remember that we are all in this together and that we need to support each other.

One of the most common forms of transportation in Mexico is the combi. These are small buses that run on city streets and can be crowded. It is not uncommon to see people sitting on the windows or standing outside the bus. This can be quite uncomfortable and can lead to injuries. However, it is important to remember that these buses are a part of the culture and are a necessary part of the transportation system in Mexico.

Another form of transportation in Mexico is the camion. These are large trucks that are used for transportation and are often seen on the streets. Sometimes, these trucks can be quite loud and can cause a lot of noise pollution. It is important to remember that these trucks are a part of the transportation system in Mexico and are necessary for transportation.

I have also experienced some accidents while riding the transportation system in Mexico. One time, I was caught in a traffic jam and had to wait for hours before I could get to my destination. This was quite frustrating, but it is important to remember that these situations can happen anywhere and are not limited to Mexico.

In the end, it is important to remember that the transportation system in Mexico can be challenging, but it is also a part of the culture and is necessary for transportation. It is important to support each other and to be aware of the challenges that come with riding the transportation system in Mexico.

Cooking with Julia: Classic Macaroni and Cheese

Directions:
1. Preheat oven to 350°F. Cook macaroni according to package directions.
2. Drain and set aside.
3. In a large saucepan, melt 1/2 cup butter over medium heat.
4. Stir in flour until smooth.
5. Gradually add milk, stirring constantly.
6. Cook and stir until thick and bubbly.
7. Add 1/2 cup of the cheese to the mixture, stirring continuously until cheese is melted. Stir in macaroni and throw.
8. Stir in any remaining cheese. Serve immediately.

Ingredients:
- 16 ounces elbow macaroni (4 cups)
- 3/4 cup yellow onion, chopped
- 4 tablespoons butter or margarine
- 3/4 cup all-purpose flour
- 5 cups milk
- 5 cups shredded cheddar cheese
