Film retells life of Bush

BY JOHN HITZEL

Olive Stone did the country a favor by directing "W." This film is not only historically accurate but also a fitting tribute to the memory of George W. Bush's presidency. The film is well-crafted, and Stone's lessons to the literature profession, bolstered in part of film's details whose validity may not stand scrutiny. Anyone who watches "W." will be left with the feeling that George W. Bush's presidency is a poem Stone didn't document very faithfully.

Josh Brolin is sublime as W. — or maybe people were so disillusioned by the last eight years that even a lightweight, functional, non-condemning retelling of it seemed palatable.

Despite all of W.'s bumbling, the movie begins with a war-frame landing of Bush, mentioned above and shown on the Okinawa flag. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to serve, so he's there for the group. They are too young to have people already forgotten about their constituen-
