Trio of candidates present ideas

Three council candidates spoke at the March 25 forum. Below are some remarks on their key issues. The election will be April 6.

**Residence halls compete with the lowest heat, water, wastes, most recycling wins the ECO Challenge**

**By BAILIE JAMES**

Three environmental studies students completed the second annual Truman ECO Challenge, which began March 15, on campus.

The ECO Challenge is a competition between residence halls and the challenge is to see who can achieve the highest sustainability levels for their building.

The competition included recycling, waste management, water usage, energy, water use, and other areas.

The students competing for the title included: Rainwater, Jr. Hall; the Environmental Campus Organization, ECO; and South Hall.

The students from Rainwater, Jr. Hall won the competition, which was held in honor of the Earth Day celebration next month.

The ECO Challenge was held March 15 to April 22, and included 12 residence halls.

City Councilman since 2008, Kirkpatrick has served on Kirksville’s City Council, the Kirksville Regional Economic Development Inc., or K-REDI, and entrepreneurs to bring new businesses to Kirksville.

He said the city should keep searching for any outside opportunities, as job growth should be the main focus.

Budget: Detweiler said there was not much to cut from the budget, and cut costs programs such as police, fire, and public safety needs to be maintained. He said the very last thing he wants to do is cut to low-essential services.

Truman: Truman is one of the main reasons that Kirksville has to avoid the status quo.

He said, "There’s also room for improvement, and we aim to continue improving that relationship as much as possible.”

Detweiler said.

**SAB announces second Nye show**

**By BLAISE HART-SCHMIDT**

SAB has set aside 400 tickets for the show and has sold 120 tickets as of April 4. The general admission tickets will cost $10.

The additional show will cost $2,938, bringing the total cost for the event to about $37,270. Pace said SAB received $25,000 from the University’s President’s office for the event as a research grant, and the remainder of the cost will be taken care of by SAB’s fund-raising efforts.

"I was excited to visit Truman, and that is him looking forward to speaking with students. His performance was simple, but meaningful. His speeches will not feature ex-citement, but you would be encouraged to take steps to change the world."

"I fall in love with his fast-paced, charming, as well as informative speech. He makes you think about science.

"When I see all of you, I feel like a young girl again," he said. "It’s great to see so many people interested in science, the key to our future."
