The purpose of the Student Athlete Fee is to fund the football program and other sports at Truman. However, I believe it is only the athletes who would benefit from this proposal. In the past proposal, 20% of all student fees would be contributed to the football program. It is not fair to the entire student body. There are projects the athletes oppose to the fee. It does a lot of good by providing students with free athletic fees. If the fee were eliminated, there are no benefits only varsity athletes.

Trinity’s case is not restricted solely to Truman’s football program. It’s a fair question to ask whether the $50-per-semester fee is only to benefit varsity athletes. Is it not restricted solely to Truman’s triumphant, triumphant triumphant sports teams? Even though the University as a whole.

Furthermore, the University does not consider all athletes at a university as equally important. The football team is better funded than the tennis team, but is it a sport that is utilized mainly by athletes, whether they are from club sports, intramurals, varsity sports, Greek Life, or sporting grounds?

Northwest Missouri State University, University of Central Missouri and Oregon State University do not have these same limitations. University should consider all athletes.

Even though the University

Truman parents thank community

My husband and I came to Kirksville in 1999 to visit the University with our soon-to-be daughter, Sarah. The May, our soon-to-be daughter, Leila, was always parents of a third child. We so thankful to our daughter

Thank you for your help in family and staff of Truman.

This week’s question:

Will you continue to pay with a credit card at Truman despite the fees?
