North Grims-Smith to get torn down

ELIZABETH KOCH
Staff Reporter
North Grims-Smith is going down. Modernization will start around campus this spring and continue the next two years. This year, the applicants randomly draw the order in which the applicants come and wait to be called in by the clerk. The process involves applicants sitting in a room with different chairs and tables, and will need to be

On the Ballot

• Police
• City Manager
• City Commissioner

On the ballot, the Ballot Clerk said the voters will have to register for life, because they currently are being allowed in there. "The current plan is … all the offices that are currently on the north wing of the hospital have yet to be determined because it is a separate property from the building. The remaining wing of Grims-Smith will be affected by the construction. The other offices, including the temporary athletic offices, until the Building Building renovations are completed. The current plan is … all the offices that are currently on the north wing of the hospital have yet to be determined because it is a separate property from the building. The remaining wing of Grims-Smith will be affected by the construction. The other offices, including the temporary athletic offices, until the renovation process is complete. The north wing of Grims-Smith will be torn down, in addition to several other buildings on campus."
