Northeast Missouri residents have responded to calls for contributions to assist millions of victims of the earthquake in Haiti on Jan. 12, which struck the country’s capi-
tal, Port-au-Prince, destroying homes and killing thousands.

Despite an afterthought Wednesday, which had a magnitude of 4.1, striking 35 miles outside the city of Port-au-Prince, aid efforts continue to pour into Haiti and even people in Northeast Missouri are de-
ing their bit to make a difference.

The new version of the Blackboard platform has been an issue for her. As IT specialist for Information Technology Services, said the switch to Blackboard 9 created some problems with faculty trying to figure it out.

“There is a bit of a learn-
ing curve in terms of utilizing the new Blackboard,” Clark said. She added that faculty need to learn where things are and how they function in the new version.

Blackboard promotes the new platform as user-friendly and more control with group work. One of the features Clark likes about the new version of Blackboard is the wiki, which allows students to easily track notes when they function in the new version.
