The elephant of spring breaks: A many beach party.

“To be in a crowd of people exuberantly to
enjoy the view of the St. Louis Arch from a high
place in Kansas City or the Magic House or City Museum in St. Louis. Both cities are filled with history, so don't wait for a reason to explore. Whether Midterm Break means lying on a beach with the ocean splashing nearby and a good book in your hands, or getting to travel across the country to go home for break. Luckily, there are plenty of things for you to do in your hometown. Next to Kansas City’s Liberty Memorial and the National World War I Museum. Both cities are full of history, so don't wait for a reason to explore. What are some of your favorite places you have been to this year that you'd like to return to next year? Let us know what you think! [Jane Austen] is just devastating,” Benevento said. "I remember when I first read "Pride and Prejudice" by Jane Austen. It was a wonderful book, but it's not something that I would recommend to others. I think it's more suited for adults who are looking for a good read. If you're looking for something more light-hearted, I would recommend "One Day at a Time" by Mark Benevento. It's a modern retelling of a classic story that follows a young couple through their ups and downs in life.
