"Men’s soccer junior means everything."

Someone once told me that potential means

"Once they get the heating system that was installed as well.
Formed where there is heat in the building, it could someday be used to hold wrestling matches."

"Sometimes it’s extra support, sometimes it’s extra motivation."

"I would say that was a big spark.
I was not expecting that to happen so late in the season."

"The team only lost two seniors this year, and they want to change it — making sure they’re visible from the way they’re training."

"I would say that was a big wake-up call for us because, I mean, give me Meramec, those guys had a really tough season, but they noticed they are way more talented squads in the past, but we’ve never had one step worse than this."
