Title

Aries (March 21-April 20) Avoid taking yourself too seriously this week. You have a tendency to work yourself into the ground—over your head. So lighten up. Your take-no-prisoners attitude is likely to be in your mind—so you may be in a mood to change your ways.

Taurus (April 21-May 21) It’s time to take a sober approach to expressing your love and appreciation of someone you care for. Avoiding any problems that are on the surface will make the music and lyrics jump. If you want to express your true feelings, you’ll need to be honest and straightforward.

Gemini (May 22-June 21) Your financial situation seems to be shaping up this week and will remain steady for at least the next several months. Find a solid foundation for your financial decisions before you start spending. The stars and planets are in your favor, so do something now.

Cancer (June 22-July 22) If you’re burning with energy, this is your week to take full advantage of the momentum you’ve acquired. Find the right moment to act, and you’ll make a positive impression.

Leo (July 23-August 22) This is just the right time to make major risks with a primary relationship or a hobby. Close change may be able to break through the barriers of your relationship. Any changes must be made now.

Virgo (August 23-September 22) There is something surprisingly good advice concerning money coming your way. Take financial advice from a close friend. A conservative approach is definitely best, and any investments should be well thought out and thoroughly researched before you begin.

Libra (September 23-October 22) Are you in a great mood this week and can do anything you want? If you look at the big picture, you’ll see that this is a good time to move forward with confidence.

Scorpio (October 23-November 21) You are in a great mood this week and can do almost anything you want. If you look at the big picture, you’ll see that this is a good time to move forward with confidence.

Sagittarius (November 22-December 21) Your feminine side is present, and everyone is encouraged to act and think in a feminine way. Don’t be your worst enemy. Thinking things through may only take you out of the game. Know when to leave well-enough alone.

Capricorn (December 22-January 19) Are you in a great mood this week and can do anything you want? If you look at the big picture, you’ll see that this is a good time to move forward with confidence.

Aquarius (January 20-February 18) It’s clear that The Ataris has begun to hit a bit of a mid-tempo, slower track.

Pisces (February 19-March 20) Your sense is sharp this week and will be needed to navigate in a sea of chaos. Everyone is encouraged to act and think in a chaotic way. Don’t be your worst enemy. Thinking things through may only take you out of the game. Know when to leave well-enough alone.

Libra (September 23-October 22) Are you in a great mood this week and can do almost anything you want? If you look at the big picture, you’ll see that this is a good time to move forward with confidence.
