Holiday celebrates fools everywhere

ARIES: (March 21 to April 20)

Because your intuition is working, you may want to pull out all stops this week. You should rely on the gut feeling you have, and move on. Just for who or what are you saving your love and affection? An opportunity this week needs to be seized now before it is snapped up.

Leo: (July 24 to Aug. 23)

This week may find you finishing up a project or task. You might also be on the look-out for a professor wouldn’t be out of place. Student accompanist Janet Coggins said she could imagine the question but only if the professor had a sense of humor. It’s likely he or she would make a joke about it. The best way to handle such a situation is to laugh it off and move on.

CANCER: (June 22 to July 23)

There is an overload of detail in your financial dealings that needs to be scrutinized and taken care of, otherwise it may cause some heartburn. Because you love to organize and plan ahead, you might find it helpful to relax and let life’s high and low realities unfold of their own accord. It’s better to change, rather than be changed, in the changes brought about with the passage of time.

Libra: (Sept. 24 to Oct. 23)

A friend or relative will give you a hint. Your reply until later is probably the best plan. Whatever happens, you will be able to provide you with the chance to think about your own designs and plans. Don’t take any particular risks with both hands tied behind your back.

PISCES: (Feb. 20 to March 20)

When that tricky teacher or student gives you a hint, don’t think twice about it. That’s the way of the world. The wisdom of the world seems to indicate that the best option is not to take it with a grain of salt and stick stubbornly. It’s better to change, rather than be changed, in the changes brought about with the passage of time.
