Many students make a great deal of money working at a local restaurant or at a grocery store. But the benefits of a liberal
education are personal and can be measured in the number of friends one has made or the one unique organization to which.

Thank you to those who have supported you financially.

You have made a substantial contribution to our program. This program provides you and your family a wonderful
experience in the public liberal arts and sciences.

While attending college, you will have the opportunity to improve your self-esteem and self-confidence. You will
be able to pursue your goals and to enhance your career prospects.

Liberal education is an important aspect of the American culture. It allows individuals to learn about different
countries and cultures. It also helps people to think critically and to develop their own ideas and opinions.

We are committed to providing you with the best possible education. We are grateful for your support and
appreciate your contribution to our program.

Regrettably, however, Student Senate is falling into its typical trend of accomplishing one really positive thing each year.
