Miller, who also plays lead guitar for the ensemble, launches this typically rollicking tune with a push towards the song’s conclusion. According to various reports, “Diane” is Miller’s way of dealing with the break up of a long-term relationship.

The final track and closing number is “Keeping It Together,” the album’s first single. The band used the song to make the disc more radio-friendly. The final album is a bit more pop than their self-titled debut. It still manages to weave a bit of the group’s past onto the disc, but it will be interesting to see what happens as the group goes on without the group’s lead vocalist.
