Changes on campus
Looking at two decades of evolution: students, structure and technology

Number of students, majors decrease as expectations and pressures intensify

Trends, fashion, technology of student body keep evolving through the decades

Higher standards improve academics, affect enrollment

Buildings on campus improve over time

"In the grand scheme of things, I think we're doing a very commendable job, as time and money permit. We keep bringing the buildings up to date."

Higher standards improve academics, affect enrollment
