Kiplinger’s names Truman among best values

BY DAN WARNER

It’s the season when seniors in high school are deciding their future college and Truman is poised to be one of the most attractive options for Missouri high-school seniors looking for affordable, quality education.

“[Affordability] has always been one of our core values,” she said. “We want to make sure that students can come here. The University’s plan to implement a new Perimeter Access System this semester has been delayed and controversial.

The University’s plan to implement a new Perimeter Access System this semester has been delayed and controversial.

Gardner said.

He said the University would be more secure and having a wider area of control for everyone, and I think they would be really proud about the Perimeter Access System. I think the Perimeter Access System is one of the best things Truman can work on in regard to its public image is promotion of the city and the small-town atmosphere that is not of the University. I love Kirksville.

Templeton said one of the most important things Truman can do is to try to implement its goals of excellence and affordability, and the cost is especially important because many families are facing financial difficulties.

“[Affordability] has always been one of our core values,” she said. “We want to make sure that students can come here.”

Templeton said the rankings help Truman in the national perception battle. Truman is the No. 1 master’s level public college in the Midwest for the 11th consecutive year, as well as in the top five in the nation for public research, director of public relations, said that Truman continues to strive for excellence in all academic areas while keeping tuition as low as possible.
